BIO-50

Bio-50 is Contact, non-systemic Insecticidal Soap
Bio-50 Controls soft-bodied pests. Provides excellent control of APHIDS in all crops, including citrus, vegetables and ornamentals. Controls instantly, by direct contact. Can be used as an efficient surfactant (wetting agent), in combination with most insecticides and fungicides.
Bio-50 is Non-toxic, completely biodegradable and harmless to beneficial insects, fits well with the concepts of IPM and organic agriculture, and can be applied up to harvest.

Instructions For Use: Apply at the early morning or at the afternoon. Do not apply during very hot weather! Do not apply more than twice sequentially. Do not apply under environmental stress conditions. Shake well before use!

Crop	Pest	Rate (%)	Spray volume	PHI
Vegetables, herbs	Aphids, red mites	2%-3% (2-3 liters for 100 liters)	Until flowing, it is important to reach out to all affected parts of the plant	3

Storage: Store in a cool, dry place. Protect from direct sunlight. Keep out of the reach of children and unauthorized persons.

Notice to user: To the extent consistent with applicable law, seller makes no warranty, express or implied, of merchantability, fitness or otherwise concerning the use of this product other than as indicated on this label. To the extent consistent with applicable law, user assumes all risks of use, storage or handling not in strict accordance with label instructions.

BIO-50

Mixing: Fill Mixing: Fill spray tank one-half full of water and add the required amount of BIO-50 while agitating. Later on, add the remainder of the water. Continue agitation until completion of spraying.

Compatibility: BIO-50 is believed to be compatible with most herbicides, fertilizers and pesticides. However, a jar test is recommended before tank mixing and application, especially when using multiple chemicals. Always add Bio-50 last.

Handling of empty packages: Container disposal - Triple rinse, then puncture and dispose of package in a sanitary landfill. Do not re-use container.

Warning:
- Harmful if swallowed
- Causes eye irritation

Avoid contact with eyes, skin or clothing.

Protective measurements:
During application, wear
- A long-sleeved shirt and long pants
- Approved mask and goggles
- Chemical-resistant gloves

Do not eat, drink, or smoke during work.
When finished, wash your hands with soap and water.

First aid: If the product has been in contact with the skin or eyes – rinse with tap water for 15 minutes. Consult a physician.

Environmental hazards: DO NOT contaminate streams, rivers or waterways with the chemical or used containers.
